Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1-3, 5, 7-9, 12, 16, 18-19, 21-23, 25, 27-28, and 31-42 are rejected under 35 U.S.C. 102(e) as being anticipated by Pellegrin, Jr.

Pellegrin, Jr. discloses the claimed invention including first and second configurations as shown in Figures 1 and 2. Further, there are rows of beds 210 provided in both slide out sections. Also, note column 5, lines 21-33 which states that the invention includes instruments, devices, and equipment that provide the trailer section with an environment similar to that of an operating room. Such features inherently include oxygen and suction ports and diagnostic instruments. Further, note fold up floor sections 558.

Re claims 3 and 27, note awning 548.

Re claim 9, each slide out section is considered to be a "treatment area" as broadly as recited and the areas are capable of being used "for" general care and surgical care. Each treatment area having a stored configuration and a deployed configuration.

Re claim 12, note HVAC filtration system 500 and generator 520.

Re claim 18, the "means for changing" is considered to be the slide out mechanism.

Re claim 19 including satellite communication, note the abstract.

Re claim 25, the third slide out 304 is considered to be "capable" of supporting an operating table as broadly as recited.

Re claims 33 and 35, table 320 is considered to be an "operating room table" or an "operating station" as broadly as recited.

Re claim 36, the treatment beds are "capable" of being used to provide dental care.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

5. Claims 4 and 29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pellegrin, Jr. in view of Hirayama et al. '358.

Pellegrin, Jr. discloses the claimed invention except for the use of a second trailer.

Hirayama et al. discloses the use of multiple trailers in a mobile hospital system.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the medical facility of Pellegrin, Jr. with a second trailer capable of storing equipment and supplies as taught by Hirayama et al. in order to enhance the overall function of the facility.

Response to Arguments

6. Applicant's arguments with respect to claims pending in the application have been considered but are moot in view of the new ground(s) of rejection.

Conclusion
